

Biopesticides Priority Options 2018

The following biopesticides products were identified as priority candidates during the Biopesticides and Minor Use Priority Setting Workshops between March 20-22, 2018. These products will now undergo a merit analysis as outlined in the priority setting process, and up to three products will be chosen for PMC biopesticides regulatory support by a panel of PMC staff, Provincial Minor Use Coordinators and Pesticide Risk Reduction Technical Working Group.

Line	Discipline	Product (Trade name)	Product (Active ingredient)	Registrant (Company)	Type of project	National Rank
